

Support our NHS workers

The Workers Party of Britain is proudly supporting NHS workers organising protests up and down the country. They are demanding a 15% pay increase paid from 1 December 2020, "in order to start recovering a decade of lost wages".

"We are calling on NHS staff and supporters to join us to send a clear message to the government. We do not accept your plans to exclude us from the public sector pay increase, and we will make ourselves heard until you listen."

NHS privatisation

The disastrous policy of opening up the NHS to capitalism has led to shortages of the most important items and services, and huge profiteering for private companies. As workloads have increased, outsourcing and pay restraint has made life intolerable for nurses and NHS workers.

Cancel student nurse debt

The Workers Party calls on the government to cancel the student debt of nurses. These students have played a heroic role these last few months, and should never have had to pay to learn the skills which benefit our entire society. We demand a society that looks after its workers, and values those who keep Britain ticking.

"I'm glad I joined the WPB, it has given me inspiration, supportive comrades, a new perspective and education, and the confidence to speak out"
